Slight Rise in U. P. and St. Paul Followed by Declines.

People's Gas and Sugar Refining Show Pressure-Engagements of Gold Affect the Money Market-Interest in Northern Pacific.

NEW YORK, Nov. t-Nothing of greasignificance and very fittle of interest re-sulted from teday's transactions in the stock market. The market opened with none of the buoyancy which had charac-terized the trading in the closing dealings on Saturday, and, indeed, price changes were limited and irregular, with business in light volume. Subscouent movements ore than ordinarily irregular.

After the opening there was quite need rise in Union Pacific and St. Paul, the movement in question extending to the remainder of the list in a slight degree, but upon its culmination the whole market subsided into irregularity. A few stocks showed distinct and effective pressure, noteworthy examples being People's Gas and Sugar Refining, and their course was not without effect upon the rest of the market. The additional engagements of gold for export were a further obstacle to speculative activity, as it was feared that the outflow would soon be reflected in the money market, and, indeed, today's rates were higher. Sterling exchange was a shade easier. A number of interesting returns of railway traffic were submitted.

Interest again centred almost wholly around the expected settlement of the Northern Pacific situation. Further def-inite information was, however, not forthcoming. The early quetations showed that the London market had refused to that the London market had refused to sceept the advances made in the local dealings on Saturday, and declines extending from his to be point below parity with our closing prices were shown. Foreign houses soft about twenty thousand shares of stocks here within the course of the morning.

Firm features of the rallway list were Atchison common, the Southern Rallway shares, and St. Louis and San Francisco. Otherwise, however, the market for rallway stocks had an irregular and generally reactionary tendency.

The local traction shares were wanting in strength, while consolidated Gas continued heavy. The copper stocks were comparatively dail. The United States Steel stocks, while active did not retain the buoyancy they displayed in Saturday's closing dealings.

dustrial companies in particular

The monetary situation continues most

A DENTIST USES IT PERSONALLY.

Combining as it does delightful fra-

interesting. There were gold engagements yesterday for today's steamer, and the indications all point to a further movement of the precious metal this week and next. London, Paris, and Berlin all want American gold, and at present there is no reason to suppose that they will not be provided with several millions of dollars. Careful people—the important people—are not in the least worried over this prospect, and in all probability are not allowing it to affect their plans for the stock market in the least. The cotton movement will be very heavy from now on, heavier than usual, because it has been so long delayed. This influence alone would soon stop the movement of gold if there were no other. A tightening of money on this side would check the movement automatically before it could become dangerous in any way. Therefore, it is very certain that no more of the metal will be sent out than can be spared easily and confertably. On this side the financial situation is shaping itself rapidly in a more favorable way. The movement of money from the interior to New York already equals that away from New York, and this week or in the near futurial is to be expected that the balance will be handsomely in favor of New York. The purchases of bonds by the Treasury Department will be another favorable factor, although it is not considered likely that the offers to the Treasury will be very large.

large.

The stock market will be closed toda, on account of the election holiday. Other markets throughout the country generally will be closed.

The feature of the market yesterday afternoon was the great strength of Union Pacific A vast amount of the stock changed hands and the price was advanced to liw and a fraction, the highest price of recent weeks. The buying was on such a large scale as seemed to preclude the possibility that any except the most important people were engaged in the movement. Naturally it was inferred that the buying indicated inside knowledge that the Northern Pacific matter has been settled, at least as far as Union Pacific has the concerned, and in a manuer entirely satisfactory to that company. Theories as to what the character of the settlement is were not so, worthy of credence as the supposition that it will soon be anneumed. This supposition is now generally advanced. One rumor yesterday was that the matter will be closed up today sufficiently to be announced tomorrow morning. St. Paul was strong, but did not make any advance. Northern Pacific preferred and Southern Facilic were also strong.

There was activity and strength in the Atchison securities, especially the cummon. The buying here was also very heavy and persistent, and of a character that did not seem consistent with the theory that the stock is simply being manipulated. The rumor was again heard that Penissylvania interests are buying the stock with a view to a closer alliance between the two companies. It is certain too that there is some investment buying on account of the fine report of the company for September.

Southern Railway preferred and common were both strong. Two stories were inculated to account for the buying in hem. One rumor was that the Pennsylnia is also huying these stocks to chain an influence in the company. Another was that Southern preferred is soon to be out on a 5 yer cent dividend basis and hen to be retired, and replaced by z i er cent bond. Apparently this move, if is to be taken, is still some time in the atore. But even if the preferred is not to be retired at par, this month or next soil the preferred and the common stocks are considered good investments by many seople.

Norfolk and Western and Chesapeake and Ohlo are also well thought of by conservative interests that have watched the affairs of the companies during the past three or four years. Their prosperity is of a most substantial character, and as far as can be judged it will tast for a long time. The soft coal business is in excellent shape. The September net carnings statement of the Norfolk and Western was given out yesterday and made an entirely satisfactory showing the inentirely satisfactory showing, the in-crease for the month being nearly \$70,000.

There is much gessip affect regarding the affairs of the Sugar Trust, and this is here or sell it have been widely distributed. Developments of some nature are likely to be seen in the near future apparently, as such a fleed of gossip usually marks the advance guard of a movement by the trust. Perhaps, however, it is simply the outlook for legislation of importance to the trust early in the coming session of Congress that is causing the interest in the steck.

The anthracite coal securities were strong yesterday, the Eries especially being conspicuous for more than their usual activity. These stocks have been neglected in the market of the past two or three months and until within the last few days, but they are likely to be the more interesting now in consequence. The coal luminess is in a wonderfully prosperous condition.

People's Gas was one of the few weak catures of the market yesterday, selling

THE CHICAGO GRAIN MARKET. Advances Made and Held by Wheat

Corn, and Onts. CHICAGO, Nov. 4.—Wheat showed 469 se gain over Saturday, and the feature was the strength of December, it being up he at Minneapolis and at New York. The May spread here tonight is barely 3c, compared with 3he on Saturday. This experience, of course, starts talk of congestion, and the talk only accontuates the situation by increasing the fern), 2 to 2, second; Fatslist (Burns), 3 to 1, anxiety of the December shorts to get out. Liverpool was higher.

Corn closed %c up, and at one time showed %c over Saturday, December closing at 58%c, and the May 61%c. Broadening interest is the important circumstance. Liverpool was up Id, influenced by cold weather. There was a visible decrease of 55,000 bushels, a local decrease of 65,000 bushels. World's shipments were less than 2,000,000 bushels.

Outs closed 45% cover Saturday, and at their best were 1,5% cover. The leading bulls keep adding to their line. There is bigger general trading.

ing bulls keep adding to their line. There is bigger general trading.

There was a brief period of firmer tone in provisions early because of higher hog and grain markets, but liberal selling by packers, particularly of lard, caused a sharp decline, and the market closed easy. There was a small improvement in the cash trade, brought about by material reductions in prices. Expected liberal hog movement outweighed the bullish influences.

CONCERT AT GASTON HALL.

necessful Entertainment for Bene fit of Athletic Association.

The rehabilitated Gaston Hall of th Georgetown University was informally able building last night, at which there was a very large attendance. The concert was given for the benefit of the University Athletic Association, and a handsome sum was realized, the result coming fully up to the expectations of those who projected

The Marine Band rendered a well selected and very entertaining programme of music. One of the noticeable features of the evening was the violin performance of Senor Jose Andonegui, a Spanlard, whose playing was enthusiastically re-ceived. The vocal renditions of George O'Connor were as pleasing as ever, and standard. The band was conducted by Prof. Santlemann The programme was as follows: Over

The programme was as follows: Overture, "Poet and Pensant," Suppe, the Marine Band, grand phantasie, "Traviata," Veril, the Marine Band, "Adda (paragraph of concerts), Alard, "Meditation," Fancurnier, Senor Jose Andonegui, "Ein Albamblatt," Wagner, the Marine Band, song, "Under the Shade of the Palms, "Florodora," Philip Lee Scantling, grand valse from suite, "Champae, Bruil, the Marine Band, string quintette "Minuet" (Reinhold), "Hungarian Dance, No. 5" (Brahmse), the Marine Band, song, "Ain't Dat a Shame," Wilson, George O'Connor, selection, "Foxy Quiller," De-Koven, Marine Band, "Henry VIII," Saint-Saens, the Marine Band, "Legenda" (Op. 17), Winiewski, Senor Jose Andonegui; march, "Hall to the Spirit of Liberty," Sousa, the Marine Band, Accompanists, Mr. Armand Gumprecht and Mr. Thomas Desmond.

The hall will be formally opened with appropriate exercises later on. An event of great interest that is looked forward propriate exercises later on. An even great interest that is looked forware

WORKERS' NIGHT MEETING. Christian Endenvor Union Discusse Organization Problems.

The members of the Christian Endeave Union of this city held an unusually large meeting last night in the First Congrega rional Church, at 8 o'clock. The session is what is termed as a "workers' night eeting," and the theme of discourluring the evening was upon the subjecof "Setting Our Mercher, to Work," inion, presided over the exercises, and ten-min te addrerer were made by vari ten-minute addresses were made by various prominent Cocistian Endeavorers.
Among those who addressed the audience during the evening, and their respective subjects of discours were. Miss Florence Bail, "How Secure New Members;" H. Ciyde Grimas, "How to Make Prayer Meetings More Attractive." Dr. F. A. Swartmont, "How to Make the Socials More Saccessful," and A. E. Ingram, "How to Make Missionary Meetings More Interesting."

Appropriate hymns were sing during the exercises, and the evening was brought to a close by organ selections by F. F. Reisner.

Receipts, past 12 months	\$1.109,315.75

THE SUREST WAY TO SECURE A HOME.

The Equitable advances money to its members to secure homes to pay off mortgages and for building purposes. Loans are made payable, principal and interest, in monthly installments. At any time before, however, settlements can be made in part or in full. When part of a loan is settled the monthly installments are reduced. Interest is only charged for the actual time that a loan, or any part thereof, is held by the borrower-it being reduced as the loan is repaid. Members are extended every facility to return money advanced and thus pay for their property.

SAVING WITH THE BEST RESULTS.

Statement showing the present withdrawal value of stock in each issue upon which a monthly payment of \$2.50 has been made-the first nineteen issues having been matured and redeemed.
